

Wind Sock

The newsletter of the Lake City Radio Control Club (LCRC)
Issue #023, April 25, 2011 AMA Club Charter #3948

The next Club meeting will be Sunday, May 1 at 2P.M.

Short newsletter this month!

Club Officers:

President- James Grimsley (386-438-8813)

Vice President- Charles Artley (386.466.1814)

Treasurer- Mark Witt (386.623.5600)

Secretary- Bob Wheeler (386.776.2969)

Field Marshal- Dan Beard (386-719-6563)

Club News:

On 3/29, just before the last meeting, I sent everyone the announcement that Dan Flemming had resigned the President's position and we needed to select a replacement. During that meeting, James Grimsley was voted in as president.

Because we had a shortage in capabilities in the training area, James has started the overseeing of pilot training. He and several others have volunteered to help new members. Contact James for help in flying and he will hook you up.

It is important that all members come to the next meeting. James has proposed having a fly-in around June 4th. We need member input, suggestions, and fly-in helpers. It's been a long time since the club has had something like this and it's an opportunity to introduce visitors to flying.

We have a new old member that has rejoined after several years. Please welcome David Powers the next time he is at the field.

Need assistance in learning to fly or other club information? For club information, questions, and suggestions contact James Grimsley 386-438-8813 or Dan Beard 386-719-6563. For flight training information and scheduling contact James Grimsley 386-438-8813. For a copy of the club by-laws or roster contact Bob Wheeler 386-776-2969 (Email - hwheel4@windstream.net).

Member Pictures: No new pictures this month.

more...

Mowing Schedule:

So far we are up to date. The remaining schedule is:

Thursday, April 21 Don Beardsley (completed)

Thursday, April 28 Tobe Morrow

Thursday, May 5 Terry McGee/James

Mower Operation:

Before mowing, please be sure to do the following:

1. Check the oil level. Oil is in the shed.
2. Make sure the steering levers are in the out position.
3. Make sure the brake is on (Left side) and the blade is not engaged.
4. Use the choke to start.
5. The blade should only be engaged with the throttle set on or near low. A fast engine may derail the belt if engaged at a fast speed.
6. The lock combination is 1357.

Planning:

Do you have suggestions of events or activities for the club this coming year? Please bring your suggestions to the next meeting.
